

For all of your:

- Worksurfaces
 - Bathrooms
 - Staircases
 - Flooring

www.stoneconnectionworksurfaces.co.uk

Natural stone surfaces convey the feeling of beauty, style and elegance to any room in the house with a wide variety of colours and finishes available. Our experienced sales team will be delighted to advise you on the most suitable materials and provide a selection of options that meet your requirements.

Stone Connection's philosophy is quite simple...

"As a company we endeavour to ensure your ideas are brought to life, with a high standard of quality and craftsmanship. With our wealth of knowledge we will guide you throughout the initial worktop design, to the installation of the finished product offering you tailored advice along the way. We ensure the investment in natural stone is both an enjoyable and rewarding experience where aspirations and expectations are completely fulfilled."

Kitchens Worktops

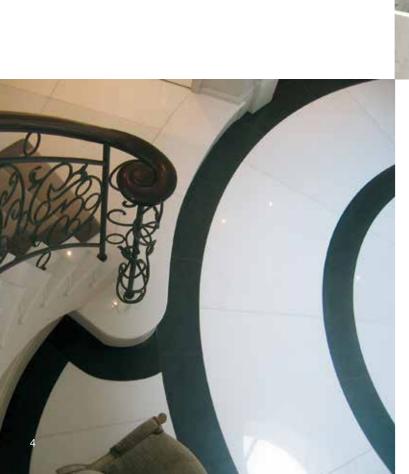

Solid worktops provide a durable, hygienic worksurface that is virtually maintenance free - used with care they will last a lifetime.

In the Bathroom

Granite, marble and limestone surfaces offer timeless beauty to any bathroom setting, whether it be a simple vanity unit or a complete natural stone experience, with flooring, shower enclosure and bath surround - the design possibilities are endless!

Stone Connection is an approved fabricator of Dekton, Silestone, Caesarstone and other quartz and ceramics. Quartz is an engineered product manufactured using one of nature's hardest materials. We offer an extensive range of colours and finishes, all of which provide stain and scratch resistance, along with excellent durable properties.

On the Floor

The popularity of natural stone flooring continues apace, adding a different dimension to house design, creating a wide range of exciting opportunities to enhance individual rooms with an elegant and durable material.

The properties of natural stone make it an ideal medium for under-floor heating, adding to the comfort and ambience of the room.

Samples

Material Selection

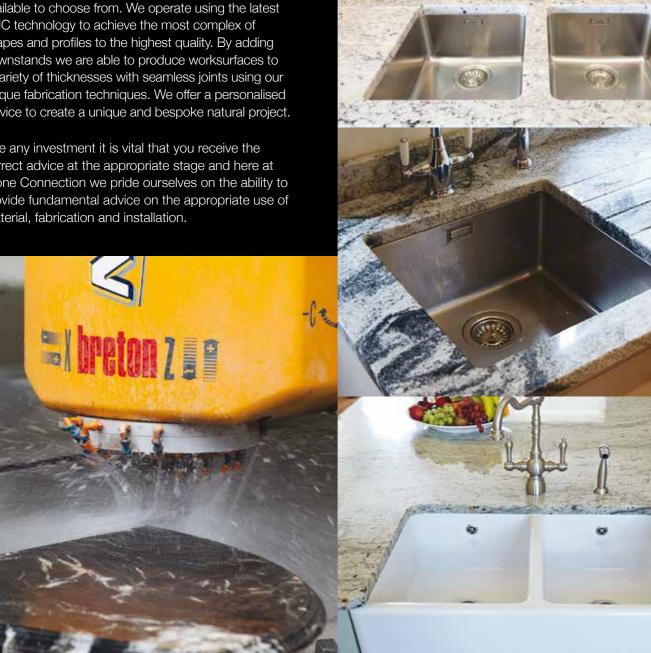

We can help at the design stage of your project with material choice, texture and colour. You can view our extensive range at our Wheldrake showroom, a member of our sales team can guide you through the wide selections available.

Edge profiles & features

At Stone Connection each worksurface is designed to meet your individual requirements with a selection of materials, surface finishes, contours and edge profiles available to choose from. We operate using the latest CNC technology to achieve the most complex of shapes and profiles to the highest quality. By adding downstands we are able to produce worksurfaces to a variety of thicknesses with seamless joints using our unique fabrication techniques. We offer a personalised service to create a unique and bespoke natural project.

Like any investment it is vital that you receive the correct advice at the appropriate stage and here at Stone Connection we pride ourselves on the ability to provide fundamental advice on the appropriate use of material, fabrication and installation.

Quotations

Why not come and visit us in our Wheldrake showroom to discuss your project requirements. At Stone Connection we would be delighted to provide you with a quotation for your project, we pride ourselves on prompt concise quotations within 24 hours and offer our professional advice and assistance throughout your project.

Manufacture

We have invested in the stone industries latest CNC technology, world renowned names such as Breton and Commanduli provide our 15,000 sq ft workshop with machinery that achieves extreme levels of accuracy and finish. This enables us to create some of the most complex designs and finishes that many other companies cannot match.

Coupled with our advanced environmentally friendly water filtration system and our dedicated team of highly skilled stonemasons, all of whom take great pride in their work, we are able to repeatedly exceed the expectations of our clients.

The Property of the Control of the C

Surveying/ Templating

The Company provides a comprehensive survey and templating service to ensure all worktops are tailor-made to individual requirements. We use the latest in laser templating technology to create accurate templates ensuring an exact fit. In addition, clients are welcome to view our extensive range of granite and marble slabs prior to making that all important decision.

Delivery & Installation

Undertaken by Stone Connection's own team of specialist fitters, all having over ten years experience and extensive knowledge of the safe handling and installation of granite and quartz worksurfaces. We pay particular attention to quality and strive to ensure our workmanship and after-care service is of the highest standard. We believe this is why some of the UK's leading interior designers and kitchen companies entrust Stone Connection with the supply of their natural stone requirements.

You are invited to our stunning showroom in Wheldrake just 5 minutes from York Designer Outlet
